TO THE TRADE

We have the following Nursery Grown Transplanted and Collected Stock to offer to the trade. This catalog cancels all previous quotations. Our first aim is a satisfied customer; next many customers. We can truthfully say we are second to none on Native Rhododendrons and such items as we have listed. You may rest assured when you give us an order and same has been accepted it will have the best attention and be filled with material of the best quality. Our shipping facilities and promptness unexcelled. The X shown in this catalog represents the number of times that item has been transplanted. We have men in our organization who have had more than twenty years experience. We guarantee every plant true to name and in good condition when shipped. We are not responsible for damage in shipping beyond our control, but will go the limit in assisting to collect any and all claims. No claim that material shipped is unsatisfactory will be entertained after ten days from receipt of shipment. We believe we are the largest growers of Native Rhododendrons in the South. We charge actual cost on crating and burlapping, no charge for packing in car lots. We give January and June dating after satisfactory references have been given. Our reference, Avery County Bank, Newland, N. C. Our appreciation of your business shown by quality of material we ship.

Nursery Grown and Collected Plants From Its Native Soil

RHODODENDRON MAXIMUM

Blooms late June and early July. Has a beautiful white bloom tinged with pink. Its leaves are dark green about two and one-half inches wide and five to ten inches long. Most commonly used for massive planting and quick results.
